### Post-doctoral position at the University of Granada

The Particle Theory group at the Department of Theoretical Physics of the University of Granada will have one post-doctoral research appointment available, carrying a two-year term, beginning October 1, 2015. The position is funded by the project FPA2013-47836-C3. The senior staff involved in the project consists of F. del Aguila, J.A. Aguilar-Saavedra, J.L. Albacete, F. Cornet, E. Gámiz, I. Grau, J.I. Illana, M. Masip, M. Pérez-Victoria, R. Pittau and J. Santiago, with interests in collider and astroparticle phenomenology, model building, beyond the Standard Model phenomenology, QCD and heavy ions, flavour physics, higher order calculations and formal aspects of quantum field theory. Other senior members of the Particle Theory group include M. Bastero and B. Janssen. More information on the group can be found at <http://www-ftae.ugr.es>.

Applicants should submit a curriculum vitae, including a list of publications and a statement of research interests, and three letters of recommendation from senior physicists, by e-mail, to Francisco del Águila ([faguila@ugr.es](mailto:faguila@ugr.es)), Juan Antonio Aguilar Saavedra ([jaas@ugr.es](mailto:jaas@ugr.es)) or Manuel Masip ([masip@ugr.es](mailto:masip@ugr.es)).
